

LINE PAINTING

AAA Striping is proud to provide a top-notch line painting service. We have over twenty years of experience in this field. Our paint trucks can be found operating in cities, towns and counties across Alberta and beyond. We put down an average of 10,000 linear km of paint each season using only Alberta Transportation approved traffic paint and glass bead. To ensure the safety of our crews and the public, our paint trucks operate with companion vehicles. These companion vehicles include a pilot truck to warn drivers that painting is in progress ahead and a crash attenuator vehicle to ensure the safety of our crews and the public.

We regularly provide our line painting services on the following types of projects:

- Newly constructed roadways
- Maintenance of existing roadways
- Counties and Municipal Districts
- Towns and cities
- Airports (military, international, regional and private)
- Industrial sites
- Commercial sites

About Us

AAA Striping and Seal Coating is a major road marking company based in Edmonton since 1981. We provide comprehensive road marking services to clients across Alberta and its surrounding provinces and territories. We specialize in both painted and durable roadway markings as well as asphalt maintenance.
